OIO Service Oriented Infrastructure

RASP Library for .Net v. 1.01

Release Notes

Contents

1 Introduction

The OIOSI RASP Library for .Net is a .Net based toolkit for implementation of RASP business applications.

This distribution is version 1.01.

The distribution is part of the OIOSI work for exchanging business documents in a secure and reliable way using the internet. See http://www.oio.dk/arkitektur/soa/infrastruktur for more information.

The framework can be downloaded from http://www.softwareborsen.dk/projekter/softwarecenter/serviceorienteret-infrastruktur/rasp-library-for.net/releases/1.0

2 Release Content

This release comprises the following deliverables:

- **RaspClientSource** – Main Visual studio 2005 solution
- **RaspClientTests**– Visual studio 2005 solution with test applications

Documentation:

- **OIOSI RASP Library for .Net 1.01 Installation Guide.doc**
- **OIOSI RASP Library for .Net 1.01 Release Notes.doc** – *this document*
- **OIOSI RASP Library for .Net 1.01 Component Overview.doc**
- **OIOSI RASP Library for .Net 1.01 API Documentation.chm**

For testing (as sub components of the **RaspClientTests** solution file):

- **dk.gov.oiosi.test.request** – Sending test project
- **dk.gov.oiosi.test.testMailService** – Receiving test project
- **dk.gov.oiosi.test.extendedRequest –** Uddi, ldap and ocsp test project
- **dk.gov.oiosi.test.nunit.library** – Nunit test project
- **dk.gov.oiosi.test.nunit.interop** – Nunit interoperability test projet

3 What is New?

The following features are new or have changed since RC1p3:

Non-breaking changes

- It is now recommended to use the
  ```
  void GetResponse(OiosiMessage request,
                   out Response response)
  ```
  method instead of the old
  ```
  Response GetResponse(OiosiMessage message)
  ```

Breaking changes

None since version 1.0

4 System Requirements

See "OIOSI RASP Library for .Net Installation Guide.doc"

 */
```

The Lesnikowski mail.dll library is a commercial library that ITST has bought a product license for. You may use the library, but not redistribute it. If you want to redistribute an application built with the RASP library, you may either buy a license for the existing mail library or substitute it with another by implementing the RASP mail provider interfaces.

```
The NUnit distributed is not a product of ITST. Following license is from
the originator.
```

6 Installation

See "OIOSI RASP Library for .Net Installation Guide.doc"

7 Compatibility

No compatibility issues.

8 Known Issues

- Calling Abort() on the request may occasionally crash if one tries to update configuration or shut down the application during sending. [as reported: http://softwareborsen.dk/projekter/softwarecenter/serviceorienteret-infrastruktur/rasp-reference-client/issues/22/view].

  This is due to a bug in the WCF WS-RM implementation that Microsoft has recognised. [as reported: http://forums.microsoft.com/MSDN/ShowPost.aspx?PostID=2189376&SiteID=1]

9 Bug Fixes

For a list of reported bugs that have been fixed in this version, please refer to http://www.softwareborsen.dk/projekter/softwarecenter/serviceorienteret-infrastruktur/rasp-library-for.net/issues
